The 15-Point Move-Out Cleaning Checklist

Get your security deposit back: the places landlords and inspectors check first.

KITCHEN

- [ ] **1. Inside and outside of the oven**
  Remove racks, wipe grease from the door glass and cavity.
- [ ] **2. Inside the refrigerator and freezer**
  Empty it, wipe shelves, drawers and the rubber door seals.
- [ ] **3. Inside the microwave and dishwasher**
  Wipe splatters, clean the filter and the door edges.
- [ ] **4. Cabinets and drawers, inside and out**
  Crumbs and grease at the handles are easy to see.
- [ ] **5. Sink, faucet and countertops**
  Remove limescale around the base of the faucet.

BATHROOMS

- [ ] **6. Toilet, including behind and around the base**
  Wipe the base, hinges and the floor line.
- [ ] **7. Tub, shower walls and glass door tracks**
  Soap scum and mold hide in the tracks and corners.
- [ ] **8. Grout and tile**
  Scrub the lines at the floor and the shower corners.
- [ ] **9. Mirror, sink and vanity**
  Check the drain area and under the sink.

BEDROOMS AND LIVING AREAS

- [ ] **10. Closets, shelves and rods**
  Dust shelves and wipe the floor of every closet.
- [ ] **11. Windows, sills and tracks**
  Dust and dead bugs collect in the tracks.
- [ ] **12. Baseboards and door frames**
  Often the first thing an inspector runs a finger on.

WHOLE HOME

- [ ] **13. Light fixtures, switches and outlet covers**
  Wipe fingerprints; dust ceiling fans and vents.
- [ ] **14. Floors: vacuum, mop and carpet check**
  Do corners and under the radiators last.
- [ ] **15. Take photos when you finish**
  Date-stamped photos protect you if there is a dispute.

Tip: start from the top (fixtures, shelves) and work down to the floors. Do the kitchen and bathrooms first, because they take the most time.
